

## Government Degree College Baramulla

**SEMESTER 8<sup>th</sup>**

**MAJOR COURSE**

**Subject: Clinical Biochemistry**

**Title: Internship**

**Code: CBCC4822M**

**CREDIT: (2+0) PRACTICAL: 02**

**Contact Hours: 64 (L)**

Internship provides students with practical experience in their field of study. It allows them to apply what they have learned in the classroom to real-world situations, develop professional skills and gain insights into their future careers. Students will carry their internship program within or outside the parent department wherein mini project work will be carried out. The department will facilitate the students for placement for their internship. Students are expected to complete a total of 64 working hours over the entire semester. At the end of the internship, the experimental work report will be submitted in the parent department. The students will be evaluated based on their attendance in the lab, daily experimental work, writing and communications skills and other criteria related to routine lab work. This will include an open presentation which will be followed by the viva of the students to be carried out by departmental faculty.
